Tune A: Dance with one, dance with them all,
we're moving in sync to the caller's call
Birdie in the cage, bend the line,
and a butterfly whirl it's a fine old time

Tune B: Walk and dodge, twirl to swap,
weave that line a forward and back
Alemande left all the way,
star promenade and then sashay

Tune A: All promenade across the set,
hang on couples it ain't over yet
Swing her to the left, swing to the right,
hold her real close and swing all night

Tune B: Dance all night to the fiddle's sound,
I lost my partner will she come back around
Four face four, and six face six,
oh, I hope I'm the one she picks
Girls circle left, and grab a new hand,
it's tough to see her with another man
She grabbed him by the waist, and she looked him in the eye,
how I wish I was that guy
Will she come home with me tonight,
she's stepping on my toes but that's alright
I went out and took a chance,
I found true love at the contra dance

Spoken: Swing your partner and promenade home
